VIRTUAL AND AUGMENTED REALITY

BRING VR & AR TO THE CLASSROOM

Great teaching has always been the secret to opening the eyes and minds of students. The younger generation are growing up surrounded by technology. The introduction of VR and AR in the classroom gives students an enriched multi-sensory experience that'll keep them excited and inspired to learn.

Techs4Education provide an all in one VR solution to take into the classroom. The devices are fast and easy to set up meaning you can take students back in time or across the globe to some of the most fascinating and awe inspiring destinations in minutes, without ever leaving the classroom.

WHAT'S INCLUDED

- 3/15/30 User kits
- Teacher tablet to control expeditions
- Google Pixel XL device
- Configuration and setup - all ready to go out of the box
- Technical support
- Create your own tours via Google VR Tour Creator

VR LOAN KIT

Not looking to buy, but still want to experience virtual reality in the classroom? Techs4Education have a loan kit which is available on demand to suit the curriculum topics. Speak to our team for more information.

WHY TECHS4EDUCATION?

We are partnered with the UK's official Google Expeditions partner Redbox VR and provide the best equipment for the job. We will help manage and pick the correct expeditions to link in with the school curriculum. We will also do regular maintenance and make sure all devices and apps are up to date.

If you're already an existing 3 year MSA customer you will qualify for a free virtual reality equipment loan
